

***Dr. Carey will speak at Limerick ADHD Conference,
10 October 2009.***

The ADD Midwest Support group is organising a conference on ADHD. Responding to the situation in which children in the Midwest may wait up to five years for assessment, Katrina Allen, Chairwoman, states there is a “total lack of progress” in successfully treating the disorder.

Appearing at the conference with Dr. Carey will be Dr. Geoff Kewley, consultant paediatrician, from the UK

The conference is being held at the Castletroy Park Hotel in Limerick.
